Hi Max,

Great catching up with you on Tuesday, wish I could have met up with you for a nightcap on Tuesday but ended up heading back to Dallas after dinner, was quite the day.

Consolidated feedback on the website and fed through chat, see below. As this gets updated we'll have some more edits but this should be a good start.

As discussed we pivoted our platform to focus primarily on acquiring and operating multifamily assets across Texas, and we'd like the website updated to reflect this shift and be more compelling for potential investors and sellers.

Below is a consolidated list of requested edits, along with some strategic enhancements.

CORE POSITIONING (High Priority)

We want the site to clearly communicate:

- We are **Texas-based and locally focused**
- We are **active multifamily buyers/operators**
- We partner with both **capital and sellers (directly purchasing and recapitalizing)**
- We execute with a **disciplined, hands-on asset management approach and leverage our Texas presence to provide compelling MF opportunities and quality sponsorship to investors**

Homepage headers and language should shift away from development-first messaging and toward acquisitions + operations.

For example:

- Replace development-heavy phrases like:
 - "Disciplined development. Custom design. Exceptional returns."
 - "Develop. Partner. Build."

With acquisition-focused messaging such as:

- "Texas Multifamily Acquisitions. Local Execution. Durable Returns."
- "Acquire. Operate. Grow."

REQUIRED SITE EDITS**Global / Navigation**

- Remove all references to **Kalterra Construction**
 - Including About → Capabilities
 - Footer LinkedIn
 - Social section
- Remove weekend office hours
- Increase font size in areas where text feels too small (notably homepage sections)

About Page**Overview – Replace first section copy with the following:**

“Kalterra is derived from the Greek word *kalitera* (the best) and the Latin word *terra* (land). True to our name, we acquire great real estate and transform it into exceptional communities. Through a data-driven and disciplined investment strategy, we identify the most attractive Texas submarkets and pursue opportunities across the full lifecycle of multifamily real estate — from acquisition of stabilized assets to select development opportunities.

Projects come alive through a meticulous operational philosophy. The needs of our residents and communities inform every decision, whether enhancing the performance of an existing asset or executing a new investment. Alignment with partners who share our vision and values is central to our success.

Multifamily ownership requires operational discipline, local market knowledge, and financial expertise. At Kalterra, we bring these together through thoughtful acquisitions and hands-on asset management to create long-term value.”

- Update team photos
- Keep Core Values as-is
- Under Capabilities, add a new section titled **Acquisitions**
- Clarify distinction between **Property Management vs Asset Management**

Capabilities Page

Add **Acquisitions** as a primary capability (between Capital Markets and Development):

Include:

- Texas-focused sourcing
- Direct seller relationships
- Institutional underwriting
- Value-add execution

- Local operational oversight

Asset Management section should be clarified to reflect ownership-level strategy, not day-to-day property management.

Portfolio

Add Kinstead as an Acquisition.

Kinstead Details - Built 2019, 376 units

Kinstead McKinney is located in the rapidly growing city of McKinney, Texas. It offers access to one of the top-ranked school districts in the state, a vibrant historic downtown, and convenient connectivity via SH 121 and US-75. These factors have helped position McKinney as the fifth fastest-growing city in the United States.

Kalterra also secured a Chapter 392 partnership with the McKinney Housing Authority, reserving 50% of the units as affordable housing while fully exempting the property from real estate taxes. This structure creates attractive, risk-adjusted returns for Kalterra and its partners while supporting the city's objective of expanding high-quality affordable housing.

Create a VALA section for future developments (Waco, Princeton, New Braunfels, etc.).

- Equity under management
